

I'm writting to let you..the FCC know, that we (My Husband & I ) benefit from listening to XM Satellited Radio and it's traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. Also living out in the country, where radio stations are few and far between,, it's Great !! to have XM Satellite Radio, just to keep up on weather and traffic, which is greatly needed here. I pay for these services and it shound not be up to the National Association of Broadcasters to dictate what we are permitted to here.

I respectfully urge the FCC to reject the NAB's Petition 04-160 and to support Xm's ability to provide the kind of programming that I demand and deserve.
